## **Course Description**

This practical and highly-interactive course includes real-life case studies where participants will be engaged in a series of interactive small groups and class workshops.

Information is a valuable asset that can make or break your business. When information properly managed, this allows you to operate with confidence. Information security management gives you the freedom to grow, innovate, and broaden your customer-base in the knowledge that all your confidential information will remain that way.

You should be very careful when it comes to protecting personal records and commercially sensitive information. ISO/IEC 27001 helps you implement a robust and systematic approach to managing information, protecting your organization's reputation. This course will help you get the most from ISO/IEC 27001.

ISO/IEC 27001 helps make businesses more resilient and responsive to threats to information security. It helps keep your business secure so you can focus on doing "business as usual" whilst clearly showing clients and suppliers your commitment to protecting information.

This course is designed to provide an overview of information system security. It covers the challenges in

## **Certificate Accreditations**

Certificates are accredited by the following international accreditation organizations:

## Accreditors for Continuing Education and Training (IACET - USA) (IACET - USA)

Haward Technology is an Authorized Training Provider by the International Accreditors for Continuing Education and Training (IACET), 2201 Cooperative Way, Suite 600, Herndon, VA 20171, USA. In obtaining this authority, Haward Technology has demonstrated that it complies with the **ANSI/IACET 2018-1 Standard** which is widely recognized as the standard of good practice internationally. As a result of our Authorized Provider membership status, Haward Technology is authorized to offer IACET CEUs for its programs that qualify under the **ANSI/IACET 2018-1 Standard**.

Haward Technology's courses meet the professional certification and continuing education requirements for participants seeking **Continuing Education Units** (CEUs) in accordance with the rules & regulations of the International Accreditors for Continuing Education & Training (IACET). IACET is an international authority that evaluates programs according to strict, research-based criteria and guidelines. The CEU is an internationally accepted uniform unit of measurement in qualified courses of continuing education.

Haward Technology Middle East will award **3.0 CEUs** (Continuing Education Units) or **30 PDHs** (Professional Development Hours) for participants who completed the total tuition hours of this program. One CEU is equivalent to ten Professional Development Hours (PDHs) or ten contact hours of the participation in and completion of Haward Technology programs. A permanent record of a participant's involvement and awarding of CEU will be maintained by Haward Technology. Haward Technology will provide a copy of the participant's CEU and PDH Transcript of Records upon request.

- British Accreditation Council (BAC)

Haward Technology is accredited by the **British Accreditation Council** for **Independent Further and Higher Education** as an **International Centre**. BAC is the British accrediting body responsible for setting standards within independent further and higher education sector in the UK and overseas. As a BAC-accredited international centre, Haward Technology meets all of the international higher education criteria and standards set by BAC.
