

**COURSE OVERVIEW OE0042**  
**Marine Hazards Prevention & Control**  
**Collision, Grounding & Flooding**

**Course Title**

Marine Hazards Prevention & Control: *Collision, Grounding & Flooding*

**Course Date/Venue**

Please refer to page 4

**Course Reference**

OE0042

**Course Duration/Credits**

Five days/3.0 CEUs/30 PDHs

**Course Description**

***This practical and highly-interactive course includes real-life case studies and exercises where participants will be engaged in a series of interactive small groups and class workshops.***

Any vessel that experiences flooding of one or more of its compartments is exposed to the risk of losing its stability and thus the risk of sinking. Collision and grounding are considered to be the most relevant accident scenarios that may cause flooding of ships, and will thus be the topic of this course.

Even though a lot of effort is constantly being made to keep vessels safe and measures are always taken to avoid serious accidents, one can never completely eliminate the probability of a serious accident to occur on board a ship. If an incident takes place, one can try to prevent it from evolving into a serious accident by for example intentionally beaching a ship that is taking in water and thus keep it from sinking. If such measures fail however, an evacuation provides a last opportunity to minimize the consequences of the accident by reducing the number of fatalities. In such situations, the evacuation performance will be very important and an orderly and timely evacuation can save the lives of many people on board.

This course is designed to provide delegates with an up-to-date knowledge and skills on marine hazards prevention and control in general and collision, grounding and flooding in particular. It covers the marine hazards; distress and salvage; fire-fighting; static electricity and security; shipboard systems and ship's equipment; ship damage control and salvage; management of safety and emergencies; enclosed spaces; shipboard operations; carriage and storage of hazardous materials; human element considerations; special ship types; safety and fire protection; emergency preparedness and evacuation; communications and mooring; precautions on ship and terminal during cargo handling; and safety management.

The course presents probabilities of collision and grounding and investigates possible events subsequent to an incident, e.g. possibilities of flooding, sinking and capsizing, expected time to sink, etc. Evacuations in case of collision and grounding are also covered and the consequences are estimated in terms of expected loss of lives.

### **Course Objectives**

Upon the successful completion of this course, each participant will be able to:-

- Apply and gain a comprehensive knowledge on marine hazards prevention and control including collision, grounding and flooding
- Be fully prepared during collision, grounding and flooding
- Learn the on-board lifesaving appliances, salvage and damage control equipment and techniques
- Describe marine emergency procedures, communication and protocols as well as distress alert and operations, lifesaving and rescue operations
- Discuss the marine hazards, boat lifesaving appliances, salvage and damage control
- Identify the various types of marine hazards and various scenarios
- Carryout preventive measures for collision, grounding, flooding, fire or other emergencies
- Recognize shipboard systems and ship's equipment
- Employ ship damage control, salvage as well as management of safety and emergencies
- Carryout shipboard operations, emergency preparedness and emergency evacuation
- Implement proper communications and mooring

### **Exclusive Smart Training Kit - H-STK®**

Participants of this course will receive the exclusive "Haward Smart Training Kit" (H-STK®). The H-STK® consists of a comprehensive set of technical content which includes **electronic version** of the course materials conveniently saved in a **Tablet PC**.

### **Who Should Attend**

This course covers systematic techniques and methodologies on marine hazards prevention and control in general and collision, grounding and flooding in particular. It is suitable for tug masters, controllers (PO), skippers and senior marine staff.

### **Course Certificate(s)**

Internationally recognized certificates will be issued to all participants of the course who completed a minimum of 80% of the total tuition hours.

### **Certificate Accreditations**

Haward's certificates are accredited by the following international accreditation organizations: -

-  [British Accreditation Council \(BAC\)](#)

Haward Technology is accredited by the **British Accreditation Council for Independent Further and Higher Education** as an **International Centre**. Haward's certificates are internationally recognized and accredited by the British Accreditation Council (BAC). BAC is the British accrediting body responsible for setting standards within independent further and higher education sector in the UK and overseas. As a BAC-accredited international centre, Haward Technology meets all of the international higher education criteria and standards set by BAC.

-  [The International Accreditors for Continuing Education and Training \(IACET - USA\)](#)

Haward Technology is an Authorized Training Provider by the International Accreditors for Continuing Education and Training (IACET), 2201 Cooperative Way, Suite 600, Herndon, VA 20171, USA. In obtaining this authority, Haward Technology has demonstrated that it complies with the **ANSI/IACET 2018-1 Standard** which is widely recognized as the standard of good practice internationally. As a result of our Authorized Provider membership status, Haward Technology is authorized to offer IACET CEUs for its programs that qualify under the **ANSI/IACET 2018-1 Standard**.

Haward Technology's courses meet the professional certification and continuing education requirements for participants seeking **Continuing Education Units (CEUs)** in accordance with the rules & regulations of the International Accreditors for Continuing Education & Training (IACET). IACET is an international authority that evaluates programs according to strict, research-based criteria and guidelines. The CEU is an internationally accepted uniform unit of measurement in qualified courses of continuing education.

Haward Technology Middle East will award **3.0 CEUs** (Continuing Education Units) or **30 PDHs** (Professional Development Hours) for participants who completed the total tuition hours of this program. One CEU is equivalent to ten Professional Development Hours (PDHs) or ten contact hours of the participation in and completion of Haward Technology programs. A permanent record of a participant's involvement and awarding of CEU will be maintained by Haward Technology. Haward Technology will provide a copy of the participant's CEU and PDH Transcript of Records upon request.

### **Accommodation**

Accommodation is not included in the course fees. However, any accommodation required can be arranged at the time of booking.

### Course Date/Venue

Session(s)	Date	Venue
1	April 26-30, 2026	Meeting Plus 9, City Centre Rotana, Doha, Qatar
2	May 31-June 04, 2026	Tamra Meeting Room, Al Bandar Rotana Creek, Dubai, UAE
3	June 22-26, 2026	Ruben Boardroom, The Rubens at The Palace, Buckingham Palace Road, London, United Kingdom
4	August 16-20, 2026	Tamra Meeting Room, Al Bandar Rotana Creek, Dubai, UAE
5	September 21-25, 2026	Salon Expo, NH Hotel Plaza de Armas, Seville, Spain
6	November 22-26, 2026	Meeting Room 4, Four Seasons Hotel Cairo at Nile Plaza, Corniche El Nil, Garden City, Cairo, Egypt
7	January 10-14, 2027	Tamra Meeting Room, Al Bandar Rotana Creek, Dubai, UAE
8	February 07-11, 2027	Meeting Room 4, Four Seasons Hotel Cairo at Nile Plaza, Corniche El Nil, Garden City, Cairo, Egypt

### Training Methodology

All our Courses are including **Hands-on Practical Sessions** using equipment, State-of-the-Art Simulators, Drawings, Case Studies, Videos and Exercises. The courses include the following training methodologies as a percentage of the total tuition hours:-

30% Lectures

20% Practical Workshops & Work Presentations

30% Hands-on Practical Exercises & Case Studies

20% Simulators (Hardware & Software) & Videos

In an unlikely event, the course instructor may modify the above training methodology before or during the course for technical reasons.

### Course Fee

Doha	<b>US\$ 8,500</b> per Delegate. This rate includes H-STK® (Haward Smart Training Kit), buffet lunch, coffee/tea on arrival, morning & afternoon of each day.
Dubai	<b>US\$ 8,000</b> per Delegate + <b>VAT</b> . This rate includes H-STK® (Haward Smart Training Kit), buffet lunch, coffee/tea on arrival, morning & afternoon of each day.
London	<b>US\$ 8,800</b> per Delegate + <b>VAT</b> . This rate includes H-STK® (Haward Smart Training Kit), buffet lunch, coffee/tea on arrival, morning & afternoon of each day.
Seville	<b>US\$ 8,800</b> per Delegate + <b>VAT</b> . This rate includes H-STK® (Haward Smart Training Kit), buffet lunch, coffee/tea on arrival, morning & afternoon of each day.
Cairo	<b>US\$ 8,000</b> per Delegate + <b>VAT</b> . This rate includes H-STK® (Haward Smart Training Kit), buffet lunch, coffee/tea on arrival, morning & afternoon of each day.

### **Course Instructor(s)**

This course will be conducted by the following instructor(s). However, we have the right to change the course instructor(s) prior to the course date and inform participants accordingly:

**Captain Sergey Kole** is an **International Expert in Port Operations & Management** with over 30 years of onshore and offshore experience within the **Oil & Gas, Petroleum and Refinery** industry. His expertise widely covers in the areas of **Offshore Drilling Operations, Coastal Navigation, Dry Docking Mechanical System, Dry-docking & Underwater Repair, Dry Docking System, Tugs/Boats Handling & Maneuvering, Ballast Water Management Convention, Ship Surveys, Ship Surveying Planning, Ship Survey Preparation, Marine Incident Investigation & Root Cause Analysis, Oil Spill Management & Response, Oil Spill IMO Level I-III, Oil Spill Pollution Control, Oil Spill Contingency & Emergency Response Plan, Tanker Vetting & Inspection, Marine Vetting & Audit Criteria Manual for Tank Ships, Marine & Ship Vetting, Vetting Process & Marine Safety Criteria, Tanker Vetting for Terminals, Ship Vetting, Marine Terminal Operations & Management, Marine Hazards Prevention & Control, Marine Communication Systems, Marine Safety, Ship Management, Oil Terminal Planning, Vessels Operations, Terminal Management & Support Operations, Oil Spill Contingency & Emergency Response Plan, Qualitative & Quantitative Risk Assessments, Terminal Planning, Oil Tanker Storage Planning, Cargo Transfer Handling, Loading & Discharging, Ballasting, Tank Cleaning, Crude Oil Washing, Ship Handling, Radar Navigation, Navigational Aids, Meteorological Data Review, Sea & Weather Condition Monitoring, ERT Vessel Coordination and Transport & Distribution Carrier**. Further, he is well-versed in **Sea-going Personnel Human Resource Management, Survival Craft & Rescue Boats, Dynamic Positioning, Anti-Piracy Preparedness & Response, Shipping Maintenance System, Oil & Chemical Tanker, Liquefied Gas Tanker, Inert Gas System, Crude Oil Tanker & Gas Carrier, Offshore Logistics & Supply Management, International Oil Supply, Transportation, Refining & Trading, Marine Fleet Management & Operations, International Maritime Conventions & Codes, Marine Radar, Port Traffic Control Systems & Instrumentation, H<sup>2</sup>S Hazard Awareness, Firefighting, Medical Care Onboard, Carriage of Dangerous & Hazardous Substances and Ballast Water & Sediment Management**.

During his career life, Captain Sergey has gained his technical and marine expertise through various challenging key positions such as being the **Captain, Operations Director, Project Manager, Port Supervisor, Master** of General Cargo Ship, **Master** of Container Ship, **Chief Officer, Marine Operations Specialist, Marine Coordinator, On-call Duty Officer, Crewing Consultant, 2<sup>nd</sup> Officer, Ship Chandler and Senior Instructor/Trainer** for several international companies such as **ZADCO, AMEC Foster Wheeler, Fircroft Engineering Services, Ltd., Rusalina Yacht Company, Van Oord Offshore, Exxon Neftegaz Ltd (ENL), Jr Shipping, Carisbrooke Shipping, Unicorn Petrol ve Kimya, Q Shipping BV, m/v Tradeport, Miedema Shipping CV, Rah Management BV, Petrobulk Maritime Inc., Empross Lines Ship Management, Melcard Ltd., Aquarian Shell Marine Inc., Mercy Baaba and Square Ltd.**

Captain Sergey has a **Bachelor's** degree in **Navigation in Nautical Studies** from the **Kiev State Academy of Water Transport, Ukraine** and holds a **Master Mariner (Unlimited)** Certificates of Equivalent Competency from the MCA, UK and NSI, Netherlands. Further, he is a **Certified Instructor/Trainer, a Certified Internal Verifier/Assessor/Trainer by the Institute of Leadership & Management (ILM)** and has delivered various trainings, courses, seminars, workshops and conferences internation

## **Course Program**

The following program is planned for this course. However, the course instructor(s) may modify this program before or during the course for technical reasons with no prior notice to participants. Nevertheless, the course objectives will always be met:

### **Day 1**

0730 – 0745	<i>Registration &amp; Coffee</i>
0745 – 0800	<i>Welcome &amp; Introduction</i>
0800 – 0815	<b>PRE-TEST</b>
0815 – 0900	<p><b>Introduction to Marine Hazards</b></p> <p>Hazard Types &amp; Category • Ignition Sources • Portable Electrical Equipment • Management of Electrical Equipment and Installations in Dangerous Areas • Use of Tools • Equipment Made of Aluminium • Cathodic Protection Anodes in Cargo Tanks • Communications Equipment • Spontaneous Combustion • Auto-Ignition • Asbestos</p>
0900 – 0915	<p><b>Distress &amp; Salvage</b></p> <p>Types of Marine Hazards &amp; Various Scenarios • Procedures for Own/Other Vessel in Cases of Collision, Grounding, Flooding, Fire or Other Emergencies – Preventive Measures</p>
0915 – 0930	<i>Break</i>
0930 – 1140	<p><b>Distress &amp; Salvage (cont'd)</b></p> <p>Lifesaving Appliance &amp; FiFi Equipment on Board</p>
1215 – 1230	<i>Break</i>
1230– 1415	<p><b>Distress &amp; Salvage (cont'd)</b></p> <p>Disabled Vessels, Distress Scenarios &amp; Radio Communications Procedures</p>
1415 – 1430	<p><b>Recap</b></p> <p>Using this Course Overview, the Instructor(s) will Brief Participants about the Topics that were Discussed Today and Advise Them of the Topics to be Discussed Tomorrow</p>
1430	<i>Lunch &amp; End of Day One</i>

### **Day 2**

0730 – 0840	<p><b>Shipboard Systems</b></p> <p>Fixed Inert Gas Systems • Venting Systems • Cargo and Ballast Systems • Power and Propulsion Systems • Vapour Emission Control (VEC) Systems • Stern Loading and Discharging Arrangements</p>
0840 – 0915	<p><b>Ship's Equipment</b></p> <p>Shipboard Fire-Fighting Equipment • Gas Testing Equipment • Lifting Equipment</p>
0915 – 0930	<i>Break</i>
0930 – 1140	<p><b>Ship Damage Control &amp; Salvage</b></p> <p>Boat Watertight Integrity &amp; Damage Control • Salvage System &amp; Equipment</p>
1215 – 1230	<i>Break</i>
1230– 1415	<p><b>Ship Damage Control &amp; Salvage (cont'd)</b></p> <p>Post Flooding Procedures • Stability, List &amp; Trim Enhancement</p>
1415 – 1430	<p><b>Recap</b></p> <p>Using this Course Overview, the Instructor(s) will Brief Participants about the Topics that were Discussed Today and Advise Them of the Topics to be Discussed Tomorrow</p>
1430	<i>Lunch &amp; End of Day Two</i>

**Day 3**

0730 - 0840	<b>Ship Damage Control &amp; Salvage (cont'd)</b> Small Vessels Stability & Flooding Calculations
0840 - 0915	<b>Ship Damage Control &amp; Salvage (cont'd)</b> Emergency Towage Operation
0915 - 0930	Break
0930 - 1140	<b>Ship Damage Control &amp; Salvage (cont'd)</b> Salvage Convention & Agreements
1215 - 1230	Break
1230 - 1350	<b>Ship Damage Control &amp; Salvage (cont'd)</b> Liabilities of Master, Crew, Owners/Charterers & Underwriters
1415 - 1430	<b>Recap</b> Using this Course Overview, the Instructor(s) will Brief Participants about the Topics that were Discussed Today and Advise Them of the Topics to be Discussed Tomorrow
1430	Lunch & End of Day Three

**Day 4**

0730 - 0840	<b>Management of Safety &amp; Emergencies</b> The International Safety Management (ISM) Code • Safety Management Systems • Permit to Work Systems • Hot Work • Welding and Burning Equipment
0840 - 0915	<b>Management of Safety &amp; Emergencies (cont'd)</b> Other Hazardous Tasks • Management of Contractors • Repairs at a Facility Other Than a Shipyard • Shipboard Emergency Management
0915 - 0930	Break
0935 - 1140	<b>Shipboard Operations</b> Cargo Operations • Stability, Stress, Trim and Sloshing Considerations Tank Cleaning • Gas Freeing • Crude Oil Washing
1215 - 1230	Break
1230 - 1415	<b>Shipboard Operations (cont'd)</b> Ballast Operations • Cargo Leakage into Double Hull Tanks • Cargo Measurement, Ullaging, Dipping and Sampling • Transfers Between Vessels
1415 - 1430	<b>Recap</b> Using this Course Overview, the Instructor(s) will Brief Participants about the Topics that were Discussed Today and Advise Them of the Topics to be Discussed Tomorrow
1430	Lunch & End of Day Four

**Day 5**

0730 - 0840	<b>Emergency Preparedness</b> Terminal Emergency Planning - Plan Components and Procedures • Definition and Hierarchy of Emergencies • Terminal Emergency Plan • Emergency Removal of tanker from Berth
0840 - 0915	<b>Emergency Evacuation</b> Evacuation and Personnel Escape Routes • Survival Craft • Training and Drills
0915 - 0930	Break
0930 - 1215	<b>Communications</b> Procedures and Precautions • Pre-Arrival Exchange of Information • Pre-Berthing Exchange of Information • Pre-Transfer Exchange of Information • Agreed Loading Plan • Agreed Discharge Plan • Agreement to Carry Out Repairs

1215 – 1230	Break
1230 – 1345	<b>Mooring</b> <i>Personnel Safety • Security of Moorings • Preparations for Arrival • Mooring at Jetty Berths • Berthing at Buoy Moorings</i>
1345 - 1400	<b>Course Conclusion</b> <i>Using this Course Overview, the Instructor(s) will Brief Participants about the Course Topics that were Covered During the Course</i>
1400 – 1415	<b>POST-TEST</b>
1415 – 1430	<i>Presentation of Course Certificates</i>
1430	<i>Lunch &amp; End of Course</i>

### **Practical Sessions**

This practical and highly-interactive course includes real-life case studies and exercises: -

### **Course Coordinator**
