

COURSE OVERVIEW NE0267-3D **Energy Efficiency and Environmental Impact**

Course Title

Energy Efficiency and Environmental Impact

Course Date/Venue

September 15-17, 2025/TBA Meeting Room, Grand Millennium Al Wahda Hotel, Abu Dhabi, UAE

Course Reference

NE0267-3D

Course Duration/Credits

Three days/1.8 CEUs/18 PDHs

Course Description

This practical and highly-interactive course includes various practical sessions and exercises. Theory learnt will be applied using our state-of-the-art simulators.

This course is designed to provide participants with a detailed and up-to-date overview on Energy Efficiency and Environmental Impact. It covers the importance of energy efficiency, global energy demand and supply trends, energy intensity, benchmarking metrics and sectoral energy use in industries and buildings; the environmental impacts of energy use, energy and climate change nexus and types of energy audits; the key performance indicators (KPIs), regulatory and policy frameworks and electrical system efficiency; the thermal system optimization, HVAC and building energy systems and water and utility management; and the renewable energy integration, environmental monitoring and compliance and environmental management systems (EMS).

During this interactive course, participants will learn the carbon footprinting and reduction; the life cycle analysis (LCA) comprising of LCA methodology and phases, cradle-to-grave versus cradle-to-cradle approaches, environmental product declarations (EPDs) and LCA in product design and procurement; the cost-benefit analysis, investment planning and behavioral and organizational change; and the strategic energy and environmental planning by setting goals and KPIs for energy/environment, developing an energy efficiency action plan and roadmap for continuous improvement.

Course Objectives

Upon the successful completion of this course, each participant will be able to:-

- Apply and gain a comprehensive knowledge on energy efficiency and environmental impact
- Discuss the importance of energy efficiency including global energy demand and supply trends, energy intensity, benchmarking metrics and sectoral energy use in industries and buildings
- Recognize environmental impacts of energy use, energy and climate change nexus and types of energy audits
- Explain key performance indicators (KPIs), regulatory and policy frameworks and electrical system efficiency
- Carryout thermal system optimization, HVAC and building energy systems and water and utility management
- Apply renewable energy integration, environmental monitoring and compliance and environmental management systems (EMS)
- Employ carbon footprinting and reduction covering carbon footprint calculation tools and carbon offsetting and neutrality strategies
- Illustrate life cycle analysis (LCA) comprising of LCA methodology and phases, cradle-to-grave versus cradle-to-cradle approaches, environmental product declarations (EPDs) and LCA in product design and procurement
- Implement cost-benefit analysis, investment planning and behavioral and organizational change
- Apply strategic energy and environmental planning by setting goals and KPIs for energy/environment, developing an energy efficiency action plan and roadmap for continuous improvement

Exclusive Smart Training Kit - H-STK®

*Participants of this course will receive the exclusive “Haward Smart Training Kit” (H-STK®). The H-STK® consists of a comprehensive set of technical content which includes **electronic version** of the course materials conveniently saved in a **Tablet PC**.*

Who Should Attend

This course provides an overview of all significant aspects and considerations of energy efficiency and environmental impact for energy managers, energy auditors, environmental engineers, sustainability officers, environmental compliance officers, plant engineers, facilities managers, maintenance supervisors, utility engineers, HSE managers, HSE advisors, environmental health and safety engineers, risk assessment personnel, process engineers, mechanical engineers, electrical engineers, project managers (sustainability projects), building services engineers, HVAC engineers, QA/QC inspectors, ISO 14001 / ISO 50001 coordinators, environmental compliance auditors, CSR professionals, ESG analysts, sustainability consultants, policy makers, regulators (energy/environment), environmental inspectors and other technical staff.

Course Certificate(s)

Internationally recognized certificates will be issued to all participants of the course who completed a minimum of 80% of the total tuition hours

Certificate Accreditations

Haward's certificates are accredited by the following international accreditation organizations: -

-  British Accreditation Council (BAC)

Haward Technology is accredited by the **British Accreditation Council** for **Independent Further and Higher Education** as an **International Centre**. Haward's certificates are internationally recognized and accredited by the British Accreditation Council (BAC). BAC is the British accrediting body responsible for setting standards within independent further and higher education sector in the UK and overseas. As a BAC-accredited international centre, Haward Technology meets all of the international higher education criteria and standards set by BAC.

-  The International Accreditors for Continuing Education and Training (IACET - USA)

Haward Technology is an Authorized Training Provider by the International Accreditors for Continuing Education and Training (IACET), 2201 Cooperative Way, Suite 600, Herndon, VA 20171, USA. In obtaining this authority, Haward Technology has demonstrated that it complies with the **ANSI/IACET 2018-1 Standard** which is widely recognized as the standard of good practice internationally. As a result of our Authorized Provider membership status, Haward Technology is authorized to offer IACET CEUs for its programs that qualify under the **ANSI/IACET 2018-1 Standard**.

Haward Technology's courses meet the professional certification and continuing education requirements for participants seeking **Continuing Education Units** (CEUs) in accordance with the rules & regulations of the International Accreditors for Continuing Education & Training (IACET). IACET is an international authority that evaluates programs according to strict, research-based criteria and guidelines. The CEU is an internationally accepted uniform unit of measurement in qualified courses of continuing education.

Haward Technology Middle East will award **1.8 CEUs** (Continuing Education Units) or **18 PDHs** (Professional Development Hours) for participants who completed the total tuition hours of this program. One CEU is equivalent to ten Professional Development Hours (PDHs) or ten contact hours of the participation in and completion of Haward Technology programs. A permanent record of a participant's involvement and awarding of CEU will be maintained by Haward Technology. Haward Technology will provide a copy of the participant's CEU and PDH Transcript of Records upon request.

Course Instructor(s)

This course will be conducted by the following instructor(s). However, we have the right to change the course instructor(s) prior to the course date and inform participants accordingly:

Mr. Mike Taylor, PhD (on-going), MScLI, MBA, MBL, BSc, HDE, is a **Senior Engineer** with over **25 years** of extensive experience in the areas of **Foundations of Renewable Energy Technologies, Renewable Energy Systems: An Introductory Course, Introduction to Clean and Renewable Energy Sources, Basics of Solar, Wind, and Other Renewable Energies, Renewable Energy Fundamentals for Engineers and Technicians, Understanding Green Energy: A Beginner's Guide, Getting Started with Renewable Power Technologies, Intro to Sustainable Energy Technologies, Principles of Renewable Energy Conversion, Exploring the Future: Introduction to Renewable Energy Solutions.** Further, he also well versed in **Major**

Gas & LNG, Gas & LNG Sales Contracts, Oil-Indexed Pricing, Data Quality Control, Basics of Natural Gas & LNG, Future of Gas & LNG Sales Contracts, Data Quality Assessment, Data Quality Planning, Data Quality Strategy Management, Data Modelling, Root Cause Analysis & Solution Development, Project Planning, Scheduling & Cost Control Professional, Project Scheduling & Cost Control, Facilitation & Leadership Skills, Coaching, Human Resource Development, Psychometric Testing, Career Development & Competence, Succession Planning, Self-Development & Empowerment, Personal Learning Needs Identification, Critical Success Factors (CSFs), Key Performance Indicators (KPIs), Productivity Creativity & Thinking Modes, Human Resource Scorecard Management, Career Laddering, Fast-Track Career Progression Application, Knowledge Management, Customer Management, Leadership Skills, Presentation Skills, Negotiation Skills, Decision Making Skills, Communication Skills, Emotional Intelligence, Performance Management, Contract Management, Quality Management, Commercial Strategy, Project Management, Risk Management, Leadership & Business Management, Human Resource Management, Planning, Budgeting & Cost Control, Business Development, Innovation, Sales Strategy and Knowledge & Intangible Asset Assessment Design. Further, he is also well versed in **Organization Management & Business Consulting, Stakeholder & Supplier Evaluation, Data Collection & Information Gathering, Value & Supply Chain Management, Intellectual Property & Innovation Assessments, Logistics & Supply Chain Management, Budgeting & Cost Control and Marketing Management.** Mr. Taylor is the **Founder & CEO** of Mitakon Innovation Pty Ltd wherein he is responsible for the development of Executives & Senior Managers specializing in innovation, knowledge management and commercial negotiation as well as authored, implemented and executed a global 21st century facilitation and leadership methodology.

During his career life, Mr. Taylor has gained his practical and field experience through his various significant positions and dedication as the **Knowledge-Solutions Service Provider, Founder-Principal/CIO, Subject Matter Expert, Consulting Partner, Executive/Management Development Facilitator, Multinational/Corporate Senior Management Consultant, Senior Quality & Management Consultant, Executive Management Development/Facilitator, Business Consultant/Facilitator, Business & Quality Consultant/Coach, Client Director, Administration Manager, Quality Manager, International Sales & Business Development Executive, Regional Sales Manager, National Key Accounts Manager, Commercial Sales & Marketing Consultant, Admin Assistant, Sales & Marketing Representative, Key Note Speaker, Lecturer and Instructor/Trainer** for various international companies such as the Highland Group (Business Consulting), **Anglo American, BHP Billiton, Rio Tinto, DI Management Solutions (BPO), Master Deal Making Institute (MDMI), RMG/Contact Media & Communications, Paul Dinsdale Properties (PDP), Giant Leap Architects, Wise Capital Investments (HOD), Evolution® Advertising, Collaborative Xchange, Leatt Corporation, Dentsply SA, FMCG/Binzagr Company, Unilever, Kellogg's, BAT, Hershey's, CORO, Lilly Direct/Lennon Generics and Bausch & Lomb.**

Mr. Taylor has **Master** degrees in **Leadership & Innovation, Business Administration and Business Leadership** as well as a **Bachelor** degree in **Physical Education** and pursuing **PhD** in **Global Governance & Energy Policy.** Further, he is a **Certified Instructor/Trainer, Certified Internal Verifier/Trainer/Assessor** by the **Institute of Leadership & Management (ILM)** and a member of **Incremental Advantage, Da Vinci Institute, Black Management Forum, Institute of Directors (IOD), World Future Society (WFS), Social Science Research Network, University of Kwazulu Natal (Alumnus), Anthropology & Archaeology Research Network and National Research Foundation (NRF).** He has further delivered numerous trainings, courses, workshops, seminars and conferences globally.

Training Methodology

All our Courses are including **Hands-on Practical Sessions** using equipment, State-of-the-Art Simulators, Drawings, Case Studies, Videos and Exercises. The courses include the following training methodologies as a percentage of the total tuition hours:-

- 30% Lectures
- 20% Practical Workshops & Work Presentations
- 30% Hands-on Practical Exercises & Case Studies
- 20% Simulators (Hardware & Software) & Videos

In an unlikely event, the course instructor may modify the above training methodology before or during the course for technical reasons.

Accommodation

Accommodation is not included in the course fees. However, any accommodation required can be arranged at the time of booking.

Course Fee

US\$ 3,750 per Delegate + **VAT**. This rate includes H-STK® (Haward Smart Training Kit), buffet lunch, coffee/tea on arrival, morning & afternoon of each day.

Course Program

The following program is planned for this course. However, the course instructor(s) may modify this program before or during the workshop for technical reasons with no prior notice to participants. Nevertheless, the course objectives will always be met:

Day 1: Monday, 15th of September 2025

0730 – 0800	<i>Registration & Coffee</i>
0800 – 0815	<i>Welcome & Introduction</i>
0815 – 0830	PRE-TEST
0830 – 0930	Introduction to Energy Efficiency <i>Definition and Importance of Energy Efficiency • Global Energy Demand and Supply Trends • Energy Intensity and Benchmarking Metrics • Sectoral Energy Use in Industries and Buildings</i>
0930 – 0945	<i>Break</i>
0945 – 1030	Environmental Impacts of Energy Use <i>Air Pollution (GHG, NOx, SOx, PM) • Water and Land Impacts from Energy Production • Ecosystem Disruption and Biodiversity Loss • Waste Generation and Heat Discharge</i>
1030 – 1130	Energy & Climate Change Nexus <i>Role of Fossil Fuels in Global Warming • Greenhouse Gas Emissions and Targets • IPCC and International Climate Goals • Link Between Carbon Footprint and Energy Consumption</i>
1130 – 1215	Energy Audit Basics <i>Types of Energy Audits (Preliminary, Detailed) • Audit Methodology and Scope • Energy Audit Instrumentation and Data Logging • Typical Audit Outcomes and Reporting</i>
1215 – 1230	<i>Break</i>

1230 – 1330	Key Performance Indicators (KPIs) Specific Energy Consumption (SEC) • Energy use Intensity (EUI) • Baseline Setting and Performance Tracking • Continuous Monitoring Systems
1330 – 1420	Regulatory & Policy Frameworks International Protocols (Kyoto, Paris Agreement) • National Policies and Standards (e.g., ISO 50001) • Environmental Impact Assessments (EIA) • Energy Labeling and Green Certifications
1420 – 1430	Recap Using this Course Overview, the Instructor(s) will Brief Participants about the Topics that were Discussed Today and Advise Them of the Topics to be Discussed Tomorrow
1430	Lunch & End of Day One

Day 2: Tuesday, 16th of September 2025

0730 – 0830	Electrical System Efficiency High-Efficiency Motors and Variable Speed Drives • Power factor Correction and Demand Control • Energy-Efficient Lighting (LEDs, Controls) • Harmonic Reduction and Energy Losses
0830 – 0930	Thermal System Optimization Boiler Efficiency and Maintenance • Steam Trap Testing and Condensate Recovery • Insulation and Heat Loss Prevention • Waste Heat Recovery Methods
0930 – 0945	Break
0945 – 1100	HVAC & Building Energy Systems Optimizing HVAC Operations • Smart Thermostats and Zoning • Building Envelope Improvements • Building Energy Management Systems (BEMS)
1100 – 1215	Water & Utility Management Energy in Water Pumping and Treatment • Reducing Water Heating Costs • Reuse and Recycling in Process Operations • Leak Detection and Flow Optimization
1215 – 1230	Break
1230 – 1330	Renewable Energy Integration Types of Renewable Energy (Solar, Wind, Biomass) • Site Assessment and Feasibility • Grid-Connected versus off-Grid Systems • Hybrid System Optimization
1330 – 1420	Environmental Monitoring & Compliance Stack Emission Monitoring • Effluent Discharge Control • Noise and Vibration Limits • Real-Time Environmental Dashboards
1420 – 1430	Recap Using this Course Overview, the Instructor(s) will Brief Participants about the Topics that were Discussed Today and Advise Them of the Topics to be Discussed Tomorrow
1430	Lunch & End of Day Two

Day 3: Wednesday, 17th of September 2025

0730 – 0830	Environmental Management Systems (EMS) ISO 14001 Structure and Implementation • Policy, Planning, Implementation, and Review • Legal and Compliance Obligations • Internal Audit and Continual Improvement
0830 – 0930	Carbon Footprinting & Reduction Scope 1, 2 and 3 Emissions • Carbon Footprint Calculation Tools • Carbon Offsetting and Neutrality Strategies • Case Studies in Emissions Reduction

0930 – 0945	<i>Break</i>
0945 – 1100	Life Cycle Analysis (LCA) <i>LCA Methodology and Phases • Cradle-to-Grave versus Cradle-to-Cradle Approaches • Environmental Product Declarations (EPDs) • LCA in Product Design and Procurement</i>
1100 – 1215	Cost-Benefit Analysis & Investment Planning <i>Evaluating Energy Efficiency Investments • Payback Period, NPV and IRR • Hidden Costs and Non-Energy Benefits • Government Grants and Incentives</i>
1215 – 1230	<i>Break</i>
1230 – 1300	Behavioral & Organizational Change <i>Role of Leadership in Sustainability • Employee Engagement Strategies • Training and Awareness Programs • Monitoring Behavioral KPIs</i>
1300 – 1345	Strategic Energy & Environmental Planning <i>Setting Goals and KPIs for Energy/Environment • Developing an Energy Efficiency Action Plan • Roadmap for Continuous Improvement • Course Wrap-up, Review and Final Q&A</i>
1345– 1400	Course Conclusion <i>Using this Course Overview, the Instructor(s) will Brief Participants about the Course Topics that were Covered During the Course</i>
1400 – 1415	POST-TEST
1415 – 1430	<i>Presentation of Course Certificates</i>
1430	<i>Lunch & End of Course</i>

Simulators (Hands-on Practical Sessions)

Practical sessions will be organized during the course for delegates to practice the theory learnt. Delegates will be provided with an opportunity to carryout various exercises using our state-of-the-art simulator “PV*SOL Premium”.

PV*SOL Premium

Course Coordinator

Mari Nakintu, Tel: +971 2 30 91 714, Email: mari1@haward.org
