

<u>COURSE OVERVIEW ME0020</u> <u>Certified Boiler Operation, Control,</u> <u>Maintenance & Troubleshooting</u>

Course Title

Certified Boiler Operation, Control, Maintenance & Troubleshooting

CEUS

Course Date/Venue

please refer to page 3

Course Reference ME0020

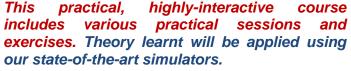

Course Duration/Credits Five days/3.0 CEUs/30 PDHs

Course Description

This course provides a comprehensive coverage of the modern high-pressure boilers. It has been completely revised, reorganized and updated to include the latest techniques in boiler operation, maintenance, water treatment, performance, optimization, inspection, control, troubleshooting, safety, emission and steam system management. Sections on boiler water treatment are now included in the course. The course utilizes actual case studies from around the world to highlight the topics discussed.

The course provides practical information that can be readily applied to pinpoint and minimize energy losses in boiler plants and energy distribution systems. Participants will be guided through their plant system component by component, showing exactly where and how performance can be improved. Facts will be given on different fuel types and firing methods, and how modern highefficiency boiler designs and control systems work.

Following easy-to-implement guidelines and helpful time-saving diagrams, participants will go over strategies to methodically achieve the maximum utilization of fuel and energy to keep operating costs low and equipment performance high.

ME0020 - Page 1 of 10

Course Objectives

Upon the successful completion of this course, each participant will be able to:-

- Apply an up-to-date knowledge, skills and systematic techniques in boiler operation, inspection, maintenance, safety & water treatment, troubleshooting, performance, optimization and steam system management
- Implement the technology for boiler water treatment including laboratory control of boiler water chemical analysis results
- Pinpoint and minimize energy losses in your boiler plant and improve its performance and efficiency
- Employ systematic techniques in boiler maintenance, inspection, testing, control, operation, tuning, start-up and shutdown and troubleshoot your boiler system in a safe manner and clean environment

Exclusive Smart Training Kit - H-STK®

Participants of this course will receive the exclusive "Haward Smart Training Kit" (H-STK[®]). The H-STK[®] consists of a comprehensive set of technical content which includes electronic version of the course materials conveniently saved in a Tablet PC.

Who Should Attend

This course provides an overview of all significant aspects and considerations of boiler operation, inspection, maintenance, safety & water treatment technology for utility superintendents, power house supervisors, maintenance engineers, design engineers, corrosion engineers, plant engineers, metallurgists, materials engineers, boiler engineers, supervisors and other technical staff. Further, reliability, mechanical integrity and safety engineers will also benefit from this important course.

Course Date/venue		
Session(s)	Course Date	Venue
1	June 15-19, 2025	Meeting Plus 9, City Centre Rotana, Doha, Qatar
2 July 27-31, 2025	TBA Meeting Room, Four Seasons Hotels Cairo at Nile	
	501y 27-51, 2025	Plaza, Cairo, Egypt
3	October 05-09, 2025	Boardroom 1, Elite Byblos Hotel Al Barsha, Sheikh Zayed
5	October 05-09, 2025	Road, Dubai, UAE
4	December 07-11, 2025	Safir Meeting Room, Divan Istanbul, Turkey
5	January 04-08, 2026	Boardroom 1, Elite Byblos Hotel Al Barsha, Sheikh Zayed
5	January 04-00, 2020	Road, Dubai, UAE

Course Date/Venue

Accommodation

Accommodation is not included in the course fees. However, any accommodation required can be arranged at the time of booking.

ME0020 - Page 2 of 10

Course Certificate(s)

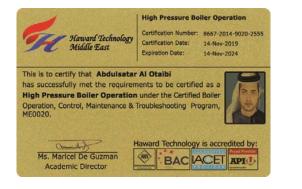

(1) Internationally recognized Competency Certificates and Plastic Wallet Cards will be issued to participants who completed a minimum of 80% of the total tuition hours and successfully passed the exam at the end of the course. Certificates are valid for 5 years.

Recertification is FOC for a Lifetime.

Sample of Certificates

The following are samples of the certificates that will be awarded to course participants: -

ME0020 - Page 3 of 10

(2) Official Transcript of Records will be provided to the successful delegates with the equivalent number of ANSI/IACET accredited Continuing Education Units (CEUs) earned during the course.

ME0020 - Page 4 of 10

ilm **IACEI**

Certificate Accreditations

Certificates are accredited by the following international accreditation organizations: -

BAC British Accreditation Council (BAC)

Haward Technology is accredited by the **British Accreditation Council** for **Independent Further and Higher Education** as an **International Centre**. BAC is the British accrediting body responsible for setting standards within independent further and higher education sector in the UK and overseas. As a BAC-accredited international centre, Haward Technology meets all of the international higher education criteria and standards set by BAC.

The International Accreditors for Continuing Education and Training (IACET - USA)

Haward Technology is an Authorized Training Provider by the International Accreditors for Continuing Education and Training (IACET), 2201 Cooperative Way, Suite 600, Herndon, VA 20171, USA. In obtaining this authority, Haward Technology has demonstrated that it complies with the **ANSI/IACET 2018-1 Standard** which is widely recognized as the standard of good practice internationally. As a result of our Authorized Provider membership status, Haward Technology is authorized to offer IACET CEUs for its programs that qualify under the **ANSI/IACET 2018-1 Standard**.

Haward Technology's courses meet the professional certification and continuing education requirements for participants seeking **Continuing Education Units** (CEUs) in accordance with the rules & regulations of the International Accreditors for Continuing Education & Training (IACET). IACET is an international authority that evaluates programs according to strict, research-based criteria and guidelines. The CEU is an internationally accepted uniform unit of measurement in qualified courses of continuing education.

Haward Technology Middle East will award **3.0 CEUs** (Continuing Education Units) or **30 PDHs** (Professional Development Hours) for participants who completed the total tuition hours of this program. One CEU is equivalent to ten Professional Development Hours (PDHs) or ten contact hours of the participation in and completion of Haward Technology programs. A permanent record of a participant's involvement and awarding of CEU will be maintained by Haward Technology. Haward Technology will provide a copy of the participant's CEU and PDH Transcript of Records upon request

Training Methodology

All our Courses are including **Hands-on Practical Sessions** using equipment, State-ofthe-Art Simulators, Drawings, Case Studies, Videos and Exercises. The courses include the following training methodologies as a percentage of the total tuition hours:-

30% Lectures

20% Practical Workshops & Work Presentations

- 30% Hands-on Practical Exercises & Case Studies
- 20% Simulators (Hardware & Software) & Videos

In an unlikely event, the course instructor may modify the above training methodology before or during the course for technical reasons.

ME0020 - Page 5 of 10

Course Instructor(s)

This course will be conducted by the following instructor(s). However, we have the right to change the course instructor(s) prior to the course date and inform participants accordingly:

Mr. Karl Thanasis, PEng, MSc, MBA, BSc, is Senior Mechanical & Maintenance Engineer with over 45 years of extensive industrial experience within the Power & Water Utilities and other Energy Sectors. His wide expertise includes District Cooling Plant, District Cooling Plant Operations, HVAC Basics, HVAC&R, KOTZA, Refrigeration, Modern HVAC & Refrigeration Systems Design, Utilization, Operation & Effective Maintenance, Control Valve & Actuators, Fire Safe Valves, Piping & Pipeline, Maintenance,

Repair, Shutdown, Turnaround & Outages, Maintenance & Reliability Management, Mechanical Maintenance Planning, Scheduling & Work Control, Advanced Techniques in Maintenance Management, Predictive & Preventive Maintenance, Maintenance & Operation Cost Reduction Techniques, Reliability Centered Maintenance (RCM), Machinery Failure Analysis, Rotating Equipment Reliability Optimization & Continuous Improvement, Material Cataloguing, Mechanical & Rotating Equipment Troubleshooting & Maintenance, Root Cause Analysis & Reliability Improvement, Condition Monitoring, Root Cause Failure Analysis (RCFA), Steam Generation, Steam Turbines, Power Generator Plants, Gas Turbines, Combined Cycle Plants, Boilers, Process Fired Heaters, Air Preheaters, Induced Draft Fans, All Heaters Piping Work, Refractory Casting, Heater Fabrication, Thermal & Fired Heater Design, Heat Exchangers, Heat Transfer, Coolers, Power Plant Performance, Efficiency & Optimization, Storage Tank Design & Fabrication, Thermal Power Plant Management, Boiler & Steam System Management, Pump Operation & Maintenance, Chiller & Chiller Plant Design & Installation, Pressure Vessel, Safety Relief Valve Sizing & Selection, Valve Disassembling & Repair, Pressure Relief Devices (PSV), Hydraulic & Pneumatic Maintenance, Advanced Valve Technology, Pressure Vessel Design & Fabrication, **Pumps.** Turbo-Generator. Turbine **Shaft Alignment**. **Lubrication**. Mechanical **Seals**. Packing, Blowers, Bearing Installation, Couplings, Clutches and Gears. Further, he is also versed in Wastewater Treatment Technology, Networking System, Water Network Design, Industrial Water Treatment in Refineries & Petrochemical Plants, Piping System, Water Movement, Water Filtering, Mud Pumping, Sludge Treatment and Drying, Aerobic Process of Water Treatment that includes Aeration, Sedimentation and Chlorination Tanks. His strong background also includes Design and Sizing of all Waste Water Treatment Plant Associated Equipment such as Sludge Pumps, Filters, Metering Pumps, Aerators and Sludge Decanters.

Mr. Thanasis has acquired his thorough and practical experience as the Project Manager, Plant Manager, Area Manager - Equipment Construction, Construction Superintendent, Project Engineer and Design Engineer. His duties covered Plant Preliminary Design, Plant Operation, Write-up of Capital Proposal, Investment Approval, Bid Evaluation, Technical Contract Write-up, Construction and Subcontractor Follow up, Lab Analysis, Sludge Drying and Management of Sludge Odor and Removal. He has worked in various companies worldwide in the USA, Germany, England and Greece.

Mr. Thanasis is a **Registered Professional Engineer** in the **USA** and **Greece** and has a **Master's** and **Bachelor's** degree in **Mechanical Engineering** with **Honours** from the **Purdue University** and **SIU** in **USA** respectively as well as an **MBA** from the **University of Phoenix** in **USA**. Further, he is a **Certified Internal Verifier/Trainer/Assessor** by the **Institute of Leadership & Management (ILM)** a **Certified Instructor/Trainer** and has delivered numerous trainings, courses, seminars, workshops and conferences worldwide.

ME0020 - Page 6 of 10

Course Fee

Cairo	US\$ 5,500 per Delegate + VAT . This rate includes Participants Pack (Folder, Manual, Hand-outs, etc.), buffet lunch, coffee/tea on arrival, morning & afternoon of each day
Dubai	US\$ 5,500 per Delegate + VAT . This rate includes Participants Pack (Folder, Manual, Hand-outs, etc.), buffet lunch, coffee/tea on arrival, morning & afternoon of each day
Istanbul	US\$ 6,000 per Delegate + VAT . This rate includes Participants Pack (Folder, Manual, Hand-outs, etc.), buffet lunch, coffee/tea on arrival, morning & afternoon of each day
Doha	US\$ 6,000 per Delegate. This rate includes Participants Pack (Folder, Manual, Hand-outs, etc.), buffet lunch, coffee/tea on arrival, morning & afternoon of each day

Course Program

The following program is planned for this course. However, the course instructor(s) may modify this program before or during the course for technical reasons with no prior notice to participants. Nevertheless, the course objectives will always be met:

Day	2
-----	---

Boiler Instrumentation & Controls
Modulating Control System • Fixed Positioning • Parallel Positioning with
Operator Trim • Fuel & Air Metering • Oxygen Trim • Feed Water
Control
Break
Boiler Instrumentation & Controls (cont'd)
Primary Control Sequence of Operation • Flame Monitoring Devices • Y-S
7800 Control System • Fireye Flame Monitor • Microprocessor based Burner
Management System • Controls & Safety Devices for Automatically Fired
Boilers • NFPA-85 Series
Boiler Startup & Shutdown
Preparation for Startup • The Pre-Startup Walk Through • Filling the Boiler
Drum • Establishing Flow through the Boiler • Establishing a Boiler Flame
Break
Boiler Startup & Shutdown (cont'd)
Basic Shutdown Procedures • Reducing Firing Rate • Reducing Steam Flow
• Reducing Air & Gas Flow • Maintaining Flow through Superheater
Recap
Using this Course Overview, the Instructor(s) will Brief Participants about the
Topics that were Discussed Today & Advise Them of the Topics to be Discussed
Tomorrow
Lunch & End of Day Two

Day 3

Day 3	
	Boiler Operation & Steam System Management
0730 - 0930	Normal Operation & Steady State Conditions • Maintaining Design Steam
	Temperature & Pressure • Maintaining Proper Combustion Conditions
0930 - 0945	Break
	Boiler Operation & Steam System Management (cont'd)
0945 - 1100	Maintaining Proper Feed Water Conditions • Monitoring the Steam/Water
	Circuit • Safety Valves & Low Water Cutoff Control
	Safety Valves & Low Water Cutoff Controls
1100 – 1215	Codes & Standards • Set Pressures & Capacity • Control Blowdown Test •
	Slow Drain Test • Evaporative Test
1215 – 1230	Break
	Boiler Water Chemistry & Treatment
1230 – 1420	Boiler Feed Water Quality • Mechanical & Chemical Deriation • Boiler
	Water Chemical Selection & Dozing
1420 - 1430	Recap
	Using this Course Overview, the Instructor(s) will Brief Participants about the
	<i>Topics that were Discussed Today & Advise Them of the Topics to be Discussed</i>
	Tomorrow
1430	Lunch & End of Day Three

ME0020 - Page 8 of 10

Day	4

	Boiler Water Chemistry & Treatment (cont'd)
0730 – 0930	Steam Purity & Controlling Steam pH • Laboratory Control of Boiler Water
	Chemical Analysis Results • Sampling Boiler Water & Steam Produced
0930 - 0945	Break
	Boiler Efficiency & Waste Heat Recovery
0945 – 1100	Heat Exchanger Efficiency • Combustion Efficiency Data Collection •
0945 - 1100	Optimum Oxygen Percentage • Optimum Stack Temperature • Waste Heat
	Recovery
	Combustion Analysis & Tuning Procedures
1100 – 1215	Combustion Efficiency Data Collection • Optimum Oxygen Percentage •
	Optimum Stack Temperature • Tips & Generally Accepted Practices
1215 – 1230	Break
	Boiler Inspection & Testing
1230 – 1420	Internal Inspection • External Inspection • Operational Inspection •
	Hydrostatic Pressure Test • Common Inspection Code Violations
1420 - 1430	Recap
	Using this Course Overview, the Instructor(s) will Brief Participants about the
	<i>Topics that were Discussed Today & Advise Them of the Topics to be Discussed</i>
	Tomorrow
1430	Lunch & End of Day Four

Day 5

Boiler Maintenance & Protection
Waterside Maintenance • Fireside Maintenance • Operating & Safety
Control Maintenance • General Maintenance • Daily Maintenance •
Weekly Maintenance • Monthly Maintenance • Annual Maintenance •
Preventive Maintenance
Break
Boiler Emissions & Pollution Control
Six Criteria Air Pollutants • NOx & SOx • VOCs • Pollution Control
Systems
Boiler Troubleshooting & Safety
Steam Traps • Loss of Boiler Flame • Low & High water • Loss of Boiler
Auxiliaries • Boiler leaks
Break
Boiler Troubleshooting & Safety (cont'd)
Boiler Overpressure • Equipment Fires • Foaming • Lockout/Tagout •
Confined Spaces • Boiler Accidents – Cause & Effect
Course Conclusion
Using this Course Overview, the Instructor(s) will Brief Participants about the
Course Topics that were Covered During the Course
COMPETENCY EXAM
Presentation of Course Certificates
Lunch & End of Course

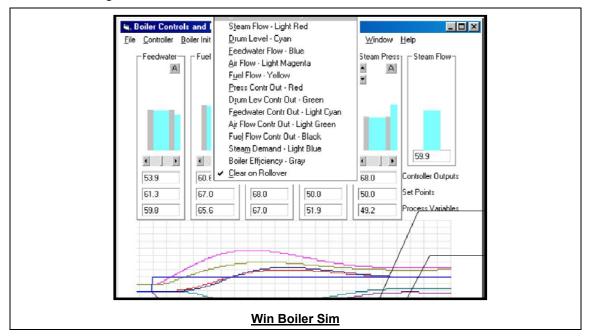

ME0020 - Page 9 of 10

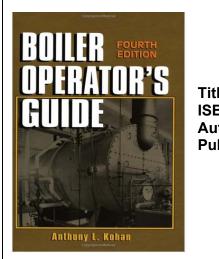

Simulator (Hands-on Practical Sessions)

Practical session will be organized during the course for delegates to practice the theory learnt. Delegates will be provided with an opportunity to carryout various exercises using the simulator "Win Boiler Sim".

Book(s)

As part of the course kit, the following e-book will be given to all participants:

Title: Boiler Operator's GuideISBN: 978-0070365742Author: Anthony KohanPublisher: McGraw-Hill Professional

Course Coordinator Reem Dergham, Tel: +974 4423 1327, Email: reem@haward.org
