 Session 3: November 23-27, 2025/Meeting Plus 8, City Centre Rotana Doha Hotel, Doha, Qatar

H-STK[®] INCLUDED

Course Reference

TM0161

Course Duration/Credits

Five days/3.0 CEUs/30 PDHs

Course Description

This practical and highly-interactive course includes real-life case studies and exercises where participants will be engaged in a series of interactive small groups and class workshops.

Business analysis is a crucial component of business process improvement (BPI) efforts. It is also a critical but often overlooked activity in new IT system development. Transitioning to e-Business mandates rigorous business process modeling.

This course will introduce you to key techniques in documenting, process modelling tools, techniques, how to practically apply them, how to select and evaluate methods and tools that are right for your project and fit your organization's culture, key techniques in documenting and analyzing current or future business processes and identifying long and short term business process improvements.

The course is also designed to give participants a clear understanding of business process mapping and modelling and the different techniques that can be used for IT purposes.

In this course, participants will learn to model business processes as they are currently enacted, assess the quality of those business processes, and collaborate with the stakeholders in the process to identify the business model required for the development of IT solution.

We start by teaching you the role and responsibilities of the business analyst in successful projects and the process for analyzing business systems. We investigate the quality attributes of business processes and learn to determine a business system's health. Understand how to identify business processes that could become more streamlined. Participants learn to define, model, and document business processes as they are today and analyze what should change. Problems will be evaluated and root cause analysis will be conducted so the problem is clearly understood and the solutions can be identified. Master the process of communicating with stakeholders to understand their process needs as well as their perceptions of the problems with the process. Learn about the methodologies used to gather stakeholder requirements. Participants use seven different modeling techniques to understand different facets of the business process, identify the most effective solution to the process, and clearly define the future process state. Once a new process is defined, learn how to convey those process changes to others, gain organizational support for making the changes, and plan for a successful change project.

Course Objectives

Upon the successful completion of this course, each participant will be able to:-

- Apply systematic techniques on business analysis practice
- Carryout business analysis planning and monitoring and discuss the key terms, the business analysis core concept model and sources of business analysis information
- Identify, analyze and communicate with relevant stakeholders and determine their activities, deliverables, resources and measures
- Define how to approve requirements and manage scope changes
- Recognize the requirements for elicitation management and communication by planning business analysis approach, confirming the results of elicitation, communicating business analysis information, managing stakeholder collaboration and prioritizing, assessing and approving requirements
- Specify and model requirements and define assumptions and constraints based on “A Guide to the Business Analysis Body of Knowledge® (BABOK® Guide)” Version 2.0 and “A Guide to the Project Management Body of Knowledge (PMBOK® Guide) 5th Edition.
- Verify and validate requirements, define design options and apply solutions assessment and validation
- Develop business analysis capabilities through analytical thinking and problem solving
- Describe behavioral characteristics and implement communication, interaction and conflict resolution skills
- Analyze risk, responsibilities and skills as well as use data flow diagrams
- Employ business analysis tools and techniques covering project scope, schedule and metrics, functional decomposition techniques, decision modelling, benchmarking and market analysis, personal planning and commitment to action

Exclusive Smart Training Kit - H-STK®

Participants of this course will receive the exclusive “Haward Smart Training Kit” (H-STK®). The H-STK® consists of a comprehensive set of technical content which includes **electronic version** of the course materials conveniently saved in a **Tablet PC**.

Who Should Attend

This course provides an overview of all significant aspects and considerations of business analysis practice for system administrators, systems analysts, business analysts, associate project managers, project managers, project coordinators, project analysts, project leaders, senior project managers, team leaders, product managers and program managers.

Training Methodology

All our Courses are including **Hands-on Practical Sessions** using equipment, State-of-the-Art Simulators, Drawings, Case Studies, Videos and Exercises. The courses include the following training methodologies as a percentage of the total tuition hours:-

- 30% Lectures
- 20% Practical Workshops & Work Presentations
- 30% Hands-on Practical Exercises & Case Studies
- 20% Simulators (Hardware & Software) & Videos

In an unlikely event, the course instructor may modify the above training methodology before or during the course for technical reasons.

Course Fee

Doha	US\$ 6,000 per Delegate. This rate includes H-STK® (Haward Smart Training Kit), buffet lunch, coffee/tea on arrival, morning & afternoon of each day.
Kuwait	US\$ 5,500 per Delegate + VAT . This rate includes H-STK® (Haward Smart Training Kit), buffet lunch, coffee/tea on arrival, morning & afternoon of each day.

Accommodation

Accommodation is not included in the course fees. However, any accommodation required can be arranged at the time of booking.

Course Certificate(s)

Internationally recognized certificates will be issued to all participants of the course who completed a minimum of 80% of the total tuition hours.

Certificate Accreditations

Certificates are accredited by the following international accreditation organizations: -

- 

British Accreditation Council (BAC)

Haward Technology is accredited by the **British Accreditation Council** for **Independent Further and Higher Education** as an **International Centre**. BAC is the British accrediting body responsible for setting standards within independent further and higher education sector in the UK and overseas. As a BAC-accredited international centre, Haward Technology meets all of the international higher education criteria and standards set by BAC.
- 

The International Accreditors for Continuing Education and Training (IACET - USA)

Haward Technology is an Authorized Training Provider by the International Accreditors for Continuing Education and Training (IACET), 2201 Cooperative Way, Suite 600, Herndon, VA 20171, USA. In obtaining this authority, Haward Technology has demonstrated that it complies with the **ANSI/IACET 2018-1 Standard** which is widely recognized as the standard of good practice internationally. As a result of our Authorized Provider membership status, Haward Technology is authorized to offer IACET CEUs for its programs that qualify under the **ANSI/IACET 2018-1 Standard**.

Haward Technology's courses meet the professional certification and continuing education requirements for participants seeking **Continuing Education Units (CEUs)** in accordance with the rules & regulations of the International Accreditors for Continuing Education & Training (IACET). IACET is an international authority that evaluates programs according to strict, research-based criteria and guidelines. The CEU is an internationally accepted uniform unit of measurement in qualified courses of continuing education.

Haward Technology Middle East will award **3.0 CEUs** (Continuing Education Units) or **30 PDHs** (Professional Development Hours) for participants who completed the total tuition hours of this program. One CEU is equivalent to ten Professional Development Hours (PDHs) or ten contact hours of the participation in and completion of Haward Technology programs. A permanent record of a participant's involvement and awarding of CEU will be maintained by Haward Technology. Haward Technology will provide a copy of the participant's CEU and PDH Transcript of Records upon request.

Day 1

0730 – 0800	Registration & Coffee
0800 – 0815	Welcome & Introduction
0815 – 0830	PRE-TEST
0830 – 0930	Business Analysis Planning & Monitoring Introduction to Business Analysis Including Key Terms
0930 – 0945	Break
0945 – 1100	Business Analysis Planning & Monitoring (cont'd) The Business Analysis Core Concept Model™ as Part of a Project
1100 - 1230	Business Analysis Planning & Monitoring (cont'd) Sources of Business Analysis Information
1230 - 1245	Break
1245 – 1420	Business Analysis Planning & Monitoring (cont'd) Identify, Analyze & Communicate with Relevant Stakeholders • Determining Activities, Deliverables, Resources & Measures
1420 – 1430	Recap
1430	Lunch & End of Day One

Day 2

0730 - 0930	Business Analysis Planning & Monitoring (cont'd) Define how to Approve Requirements & Manage Scope Changes
0930 - 0945	Break
0945 - 1030	Requirements Elicitation Management & Communication Plan Business Analysis Approach • How to Prepare for, & Conduct Elicitation
1030 - 1130	Requirements Elicitation Management & Communication (cont'd) Confirming the Result of Elicitation • Communicating Business Analysis Information
1130 - 1230	Requirements Elicitation Management & Communication (cont'd) Managing Stakeholder Collaboration Through Recording, Assessing and Reporting Clear, Correct and Consistent Information
1230 - 1245	Break
1245 - 1420	Requirements Elicitation Management & Communication (cont'd) How to Manage Objectives by Prioritizing, Assessing & Approving Requirements by Ensuring Stakeholders Understanding of Requirements Through Effective Presentations
1420 – 1430	Recap
1430	Lunch & End of Day Two

Day 3

0730 - 0930	Requirements Elicitation Management & Communication (cont'd) How to Trace & Maintain Correct Information Provided by Stakeholders Related to Requirements
0930 - 0945	Break
0945 - 1030	Requirements Analysis Understand and Identify why “Change Management is Required • Specifying & Modelling Requirements

1030 - 1130	Requirements Analysis (cont'd) New Capability Requirements • Prepare a Business Case • Defining Assumptions & Constraints
1130 - 1230	Requirements Analysis (cont'd) Verifying & Validating Requirements • Understanding of a Feasibility Study • How to Define Requirements Architecture
1230 - 1245	Break
1245 - 1420	Requirements Analysis (cont'd) Defining Design Options • Solution Assessment & Validation
1420 - 1430	Recap
1430	Lunch & End of Day Three

Day 4

0730 - 0930	Developing Business Knowledge & Analysis Capabilities Analytical Thinking & Problem Solving • Behavioral Characteristics & Time Management
0930 - 0945	Break
0945 - 1100	Developing Business Knowledge & Analysis Capabilities (cont'd) Communication, Interaction & Conflict Resolution Skills
1100 - 1230	Developing Business Knowledge & Analysis Capabilities (cont'd) Business Risk, Responsibilities & Skills Analyses
1230 - 1245	Break
1245 - 1420	Developing Business Knowledge & Analysis Capabilities (cont'd) Using Data Flow Diagrams • Case Study
1420 - 1430	Recap
1430	Lunch & End of Day Four

Day 5

0730 - 0930	Business Analysis Tools & Techniques Project Scope, Schedule & Metrics • Functional Decomposition Techniques
0930 - 0945	Break
0945 - 1100	Business Analysis Tools & Techniques (cont'd) Roles & Responsibilities • Decision Modelling
1100 - 1230	Business Analysis Tools & Techniques (cont'd) Benchmarking & Market Analysis • Personal Planning
1230 - 1245	Break
1245 - 1345	Business Analysis Tools & Techniques (cont'd) Action Plans & Commitment to Action
1345 - 1400	Course Conclusion
1400 - 1415	POST-TEST
1415 - 1430	Presentation of Course Certificates
1430	Lunch & End of Course

Practical Sessions

This practical and highly-interactive course includes real-life case studies and exercises:-
