Session 2: September 01-05, 2024/ The Kooh Al Noor Meeting Room, The H Dubai Hotel, Sheikh Zayed Rd - Trade Centre, Dubai, UAE

Course Reference

DM0560

Course Duration/Credits

Five days/3.0 CEUs/30 PDHs

Course Description

This practical and highly-interactive course includes real-life case studies and exercises where participants will be engaged in a series of interactive small groups and class workshops.

This course is designed to provide participants with a detailed and up-to-date overview of corporate security management. It covers the essence and basic principles of security; the key corporate partners of security, the chief security officer competences, security team, private security industry, people management and leadership; managing a security organization and security models according to industry; and the security management styles, key success factors in managing security processes and corporate security setup.

Further, this course will also discuss the incorporating of security elements covering information and intelligence, security governance, people, physical elements, technology (electronic systems), communication and control; the internal risks, reputational risks, embezzlement, theft, fraud, acts of protest, substance abuse, gambling and inadequate security resilience; the external risks including global issues versus corporate security, crime, cybercrime and high-tech crimes; the external frauds, natural factors, specific risks to people, data leakage and emergency situations; and the physical security, facility security and security of events.

During this interactive course, participants will learn the supply chain and retail loss prevention as well as human capital, human resources and security of corporate travelers and expatriates; the confidentiality, integrity and availability; the basic information, security principles, combating fraud, internal investigations, BCM and disaster recovery; and analyzing, discussing, planning, controlling and administering threat analysis, vulnerability assessment, security planning and security metrics/KPI.
