

COURSE OVERVIEW FE0630 Material Certification Management

Course Title

Material Certification Management

Course Date/Venue

November 09-13, 2025/Business Meeting,
Crowne Plaza Al Khobar, Al Khobar, KSA

Course Reference

FE0630

Course Duration/Credits

Five days/3.0 CEUs/30 PDHs

Course Description

This practical and highly-interactive course includes real-life case studies and exercises where participants will be engaged in a series of interactive small groups and class workshops.

This course is designed to provide participants with a detailed and up-to-date overview of the knowledge in material processing, heat treatment, material selection, metallurgy, material defects and material corrosion mechanisms; the material requisition as per standard requirements; the material management cycle; the materials in accordance with the international codes; & standards; the acceptance/rejection criteria during the inspection process; and the material certificates availability as per purchase order for materials received and complete "Certificates Receipt Reports" as per verification results ensuring that items with serial numbers, heat numbers, and traceability are arranged.

During this interactive course, participants will learn that the materials certification documents are properly scanned and, along with required information, entered into warehouse "Material Certificates Database" by provision of spot checks; the user departments on resolving material inspection and certification issues and complete "Certificates Issue Reports" as per user department requests for materials; the "Transfer To Disposal" forms for user consideration; and ensuring that all rejected materials are segregated and kept in quarantine or disposal area in conjunction with Warehouse Supervisor.

Course Objectives

Upon the successful completion of this course, participants will be able to:-

- Apply systematic techniques in material certification management
- Identify the physical, chemical and mechanical properties of different types of materials including metals (ferrous & non-ferrous), plastics and composite materials
- Demonstrate knowledge in material processing, heat treatment, material selection, metallurgy, material defects and material corrosion mechanisms
- Prepare material requisition as per standard requirements and discuss the material management cycle
- Inspect materials in accordance with the international codes & standards and distinguish the acceptance/rejection criteria during the inspection process
- Verify material certificates availability as per purchase order for materials received and complete “Certificates Receipt Reports” as per verification results ensuring that items with serial numbers, heat numbers, and traceability are arranged
- Ensure that the materials certification documents are properly scanned and, along with required information, entered into warehouse “Material Certificates Database” by provision of spot checks
- Communicate with user departments on resolving material inspection and certification issues and complete “Certificates Issue Reports” as per user department requests for materials
- Complete “Transfer To Disposal” forms for user consideration and ensure that all rejected materials are segregated and kept in quarantine or disposal area in conjunction with Warehouse Supervisor

Exclusive Smart Training Kit - H-STK®

Participants of this course will receive the exclusive “Howard Smart Training Kit” (H-STK®). The H-STK® consists of a comprehensive set of technical content which includes **electronic version** of the course materials conveniently saved in a Tablet PC.

Who Should Attend

This course provides an overview of all significant aspects and considerations of material certification management for senior certificate management engineers, certificate management engineers, certificate management technicians, inspection engineers and material control engineers and management.

Course Certificate(s)

Internationally recognized Competency Certificates and Plastic Wallet Cards will be issued to participants who completed a minimum of 80% of the total tuition hours and successfully passed the exam at the end of the course. Certificates are valid for 5 years.

Recertification is FOC for a Lifetime.

Sample of Certificates

The following are samples of the certificates that will be awarded to course participants:-

- (1) Official Transcript of Records will be provided to the successful delegates with the equivalent number of ANSI/IACET accredited Continuing Education Units (CEUs) earned during the course

* Haward Technology * CEUs * Haward Technology * CEUs * Haward Technology * CEUs * Haward Technology *

Haward Technology Middle East

Continuing Professional Development (HTME-CPD)

Academic Director

Haward Technology has been approved as an Authorized Provider by the International Association for Continuing Education and Training (IACET), 2201 Cooperative Way, Suite 800, Herndon, VA 20171, USA. In obtaining this approval, Haward Technology has demonstrated that it complies with the ANSI/IACET 1-2013 Standard which is widely recognized as the standard of good practice internationally. As a result of their Authorized Provider membership status, Haward Technology is authorized to offer IACET CEUs for programs that qualify under the ANSI/IACET 1-2013 Standard.

Haward Technology's courses meet the professional certification and continuing education requirements for participants seeking Continuing Education Units (CEUs) in accordance with the rules & regulations of the International Association for Continuing Education & Training (IACET). IACET is an international authority that evaluates programs according to strict, research-based criteria and guidelines. The CEU is an internationally accepted uniform unit of measurement in qualified courses of continuing education.

Haward Technology is accredited by

P.O. Box 26070, Abu Dhabi, United Arab Emirates | Tel: +971 2 3091 714 | Fax: +971 2 3091 716 | E-mail: info@haward.org | Website: www.haward.org

Certificate Accreditations

Certificates are accredited by the following international accreditation organizations:

- 
British Accreditation Council (BAC)

Haward Technology is accredited by the **British Accreditation Council for Independent Further and Higher Education** as an **International Centre**. BAC is the British accrediting body responsible for setting standards within independent further and higher education sector in the UK and overseas. As a BAC-accredited international centre, Haward Technology meets all of the international higher education criteria and standards set by BAC.

- 
The International Accreditors for Continuing Education and Training (IACET - USA)

Haward Technology is an Authorized Training Provider by the International Accreditors for Continuing Education and Training (IACET), 2201 Cooperative Way, Suite 600, Herndon, VA 20171, USA. In obtaining this authority, Haward Technology has demonstrated that it complies with the **ANSI/IACET 2018-1 Standard** which is widely recognized as the standard of good practice internationally. As a result of our Authorized Provider membership status, Haward Technology is authorized to offer IACET CEUs for its programs that qualify under the **ANSI/IACET 2018-1 Standard**.

Haward Technology's courses meet the professional certification and continuing education requirements for participants seeking **Continuing Education Units (CEUs)** in accordance with the rules & regulations of the International Accreditors for Continuing Education & Training (IACET). IACET is an international authority that evaluates programs according to strict, research-based criteria and guidelines. The CEU is an internationally accepted uniform unit of measurement in qualified courses of continuing education.

Haward Technology Middle East will award **3.0 CEUs** (Continuing Education Units) or **30 PDHs** (Professional Development Hours) for participants who completed the total tuition hours of this program. One CEU is equivalent to ten Professional Development Hours (PDHs) or ten contact hours of the participation in and completion of Haward Technology programs. A permanent record of a participant's involvement and awarding of CEU will be maintained by Haward Technology. Haward Technology will provide a copy of the participant's CEU and PDH Transcript of Records upon request.

Course Fee

US\$ 5,500 per Delegate + **VAT**. This rate includes H-STK® (Haward Smart Training Kit), buffet lunch, coffee/tea on arrival, morning & afternoon of each day.

Course Instructor(s)

This course will be conducted by the following instructor(s). However, we have the right to change the course instructor(s) prior to the course date and inform participants accordingly:

Mr. Salah Younes is a **Senior Pipeline & Corrosion Engineer** with over **30 years** of extensive **onshore & offshore** experience within the **Oil, Gas, Refinery** and **Petrochemical** industries. His wide expertise covers in the areas of **Materials & Corrosion, Inspection and Corrosion Foundations, Pipeline Inspection, Corrosion & Repair, LP/HP Gas, Condensate & Fuel Production, Corrosion Control, Corrosion Mechanism & Chemical Reactions, Corrosion Prevention & Control Techniques, Corrosion Management & Monitoring, Corrosion**

Inhibitors, Corrosion Analysis & Remedial Actions, Corrosion Inspection, Facility Integrity Assessments & Rehabilitation, Production Corrosion Control, Cathodic Protection Testing, Painting Inspection, Pipeline Integrity Management, Pipeline Pigging & Assessment, Pipeline Design, Facility Integrity & Assessment, Risk Based Inspection, Process Piping, Storage Tanks, Tank Farm Piping Network, Pigging, ANSI/ASME B31, Pressure Vessels Design & Fabrication, Offshore Structure & Facilities, Onshore Facilities & Storage Tanks, Pressure Vessels, Inhibitors, Protective Coatings, Water Treatment & Injection, Water Flooding, Chemical Treatment & Injection, Oil & Gas Process and Steel Structure Painting. Further, his expertise includes soil resistivity, platform structures, atmospheric tanks, safety relieves valves, heat exchangers, fire heaters, fireproofing materials, lifting equipment, tubing, casing and gas lifting systems, fabrication yards, coatings & non-metallic materials, external & internal coatings, linear polarization and hot tapping. Currently, he is the **Engineering General Manager** wherein he prepares and follow-up periodical inspection plans for all plant equipment internally and externally during downtime and/or maintenance programs at oil processing plant, gas plant, water flooding plant and production platforms.

Earlier in Mr. Salah's career, he acquired his practical and technical expertise and held key positions as the **Engineering Manager, Corrosion Department Manager, Facilities Integrity Manager, Corrosion Specialist, Offshore Engineer, Pipeline Integrity Consultant, Corrosion & Chemical Treatment Head, Coating Engineer, Corrosion Engineer, Chemical Engineer, Lecturer/Trainer** and **Senior Consultant** from international companies like the **ADMA-OPCO, Qatar Petroleum (QP), RASGAS, MAERSK Oil Qatar, GUPCO** and **Bureau Veritas**.

Mr. Salah has a **Bachelor** degree in **Chemical Engineering**, a **Post Graduate Diploma** in **Chemical Engineering** and a **Diploma** in **Corrosion & Water Treatment**. Further, he is a **Certified Instructor/Trainer**, a **Certified Internal Verifier/Assessor/Trainer** by the **Institute of Leadership and Management (ILM)**, a **Certified BGAS-CSWIP Painting Inspector** and a **Certified ASNT-NDT Level II** in **Magnetic Particles Testing (MT), Penetrant Testing (PT)** and **Radiographic Testing (RT)**. Moreover, he has published various technical papers related to **Corrosion Management** and **Cathodic Protection** that have been presented at several international courses and conferences and has delivered numerous trainings, courses, seminars, conferences and workshops globally.

Training Methodology

All our Courses are including **Hands-on Practical Sessions** using equipment, State-of-the-Art Simulators, Drawings, Case Studies, Videos and Exercises. The courses include the following training methodologies as a percentage of the total tuition hours:-

- 30% Lectures
- 20% Practical Workshops & Work Presentations
- 30% Hands-on Practical Exercises & Case Studies
- 20% Simulators (Hardware & Software) & Videos

In an unlikely event, the course instructor may modify the above training methodology before or during the course for technical reasons.

Accommodation

Accommodation is not included in the course fees. However, any accommodation required can be arranged at the time of booking

Course Program

The following program is planned for this course. However, the course instructor(s) may modify this program before or during the course for technical reasons with no prior notice to participants. Nevertheless, the course objectives will always be met:

Day 1: Sunday, 09th of November 2025

0730 - 0800	Registration & Coffee
0800 - 0815	Welcome & Introduction
0815 - 0830	PRE-TEST
0830 - 0930	Physical Properties of Material
0930 - 0945	Break
0945 - 1030	Chemical Properties of Materials
1030 - 1130	Mechanical Properties of Material
1130 - 1230	Material Classification
1230 - 1245	Break
1245 - 1420	Ferrous Metal
1420 - 1430	Recap
1430	Lunch & End of Day One

Day 2: Monday, 10th of November 2025

0730 - 0900	Non-Ferrous Metals
0900 - 0930	Plastic & Composite Material
0930 - 0945	Break
0945 - 1200	Material Processing & Heat Treatment
1200 - 1230	Material Selection
1230 - 1245	Break
1245 - 1345	Metallurgy Overview
1345 - 1420	Material Inherent Defects
1420 - 1430	Recap
1430	Lunch & End of Day Two

Day 3: Tuesday, 11th of November 2025

0730 – 0900	<i>Material Defects During Fabrication</i>
0900 - 0930	<i>Material Defects Due to Service</i>
0930 - 0945	<i>Break</i>
0945 - 1200	<i>Corrosion Mechanism</i>
1200 - 1230	<i>Making Material Requisition as per Standard & Code Requirements</i>
1230 - 1245	<i>Break</i>
1245 - 1345	<i>Material Management Cycle</i>
1345 - 1420	<i>Material Inspection as per Codes & Standards</i>
1420 - 1430	<i>Recap</i>
1430	<i>Lunch & End of Day Three</i>

Day 4: Wednesday, 12th of November 2025

0730 – 0830	<i>Acceptance/Rejection Criteria as per Material Code</i>
0830 – 0900	<i>Material Test Certificate Review</i>
0900 - 0930	<i>Material Loading</i>
0930 - 0945	<i>Break</i>
1045 – 1130	<i>Material Receiving Report</i>
1130 - 1230	<i>Material Certificate Verification</i>
1230 - 1245	<i>Break</i>
1245 - 1420	<i>Certificate Receipt Report</i>
1420 - 1430	<i>Recap</i>
1430	<i>Lunch & End of Day Four</i>

Day 5: Thursday, 13th of November 2025

0730 – 0830	<i>Material Certificates Database</i>
0830 – 0900	<i>Resolving Material Inspection & Certification Issues</i>
0900 - 0930	<i>Certificate Issue Report</i>
0930 - 0945	<i>Break</i>
1045 - 1230	<i>Transfer to Disposal Forms</i>
1230 - 1230	<i>Material Rejection & Segregation Procedures</i>
1230 - 1245	<i>Break</i>
1245 - 1315	<i>Course Conclusion</i>
1315 - 1415	COMPETENCY EXAM
1415 - 1430	<i>Presentation of Course Certificates</i>
1430	<i>Lunch & End of Course</i>

Practical Sessions

This practical and highly-interactive course includes real-life case studies and exercises:-
